Who We Are

Connections That Matter. Experience That Counts.

BTIG, a U.S. Bancorp company, is a global financial services firm specialising in institutional trading, investment banking, research and related brokerage services. At BTIG, our people are our greatest asset. We take pride in attracting the best and brightest individuals from diverse backgrounds and mindsets. Employees with an entrepreneurial spirit thrive within our culture, where ingenuity is rewarded, and innovations are quickly adopted.

"I have thoroughly enjoyed the BTIG summer internship. I have learnt a great deal and that is due to the time and effort everyone at BTIG has put into us as a group. I think all the projects we undertook were clearly thought out and gave us the opportunity to gain knowledge in the specific department we were working in."

2026 INTERN

"Having the opportunity to absorb the extensive knowledge everyone has at BTIG has been invaluable. Everyone has been incredibly generous with their time, and to explain concepts and answer endless questions. I've enjoyed the opportunity to rotate through every business operation, to form a picture of the company's function as a whole."

2025 INTERN

What to Expect

Don't Just Build Your Resume. Build Your Career.

At BTIG, the summer internship program introduces students to many facets of financial services. Interns learn about the firm and the industry while working alongside teams of experienced BTIG professionals.

During the ten-week program, interns will round out their experience by participating in social, networking and team building events. More specifically, BTIG interns will have the opportunity to join select sessions of our US Leadership Speaker Series, gaining direct access to senior management, and will participate in practical hands-on projects and industry specific training. Interns also participate in programs focused on giving back to the community.

Your internship will start with an intensive training week to give you an essential platform for getting the most out of your time with BTIG. Following this, you will spend nine weeks rotating through the different sales and trading desks across asset classes, alongside back office and middle office operations, to gain an understanding of every part of the firm.

You will learn through involvement in real challenges such as researching, reporting, monitoring, formulating trade ideas and analysing data. You will be given tasks that are integral to the team's workflow alongside an individual project to showcase what you have learnt over the ten weeks.

The Internship will be based in the London Office.

"I've really enjoyed the summer internship and I genuinely feel like I've learned a lot. Everyone at BTIG has been super approachable and always happy to chat, explain things, and help when I had questions. The biggest positive for me has been the amount of experience across the desks, you're surrounded by people who really know their stuff, and there's a lot you can pick up just by being exposed to that day to day. That's a clear differentiator versus a lot of other programmes."

2026 INTERN

WE'RE LOOKING FOR:

We are seeking flexible, enthusiastic, and hardworking individuals with strong self-confidence and team-oriented mindset who can engage with any task at hand. Ideal candidates will be comfortable interacting at all levels of the organisation, adept at multitasking in a fast-paced environment, possess excellent communication and technology skills, demonstrate strong attention to detail, and exhibit an ambitious, entrepreneurial attitude.

Departments at BTIG London and Key Skills for Success

Equities Sales and Trading

Skills and Qualifications: Analytical and quantitative thinking, communication skills, multitasking, teamwork, and an active interest in equity markets.

Key Activities: Monitor and analyse equity markets, assist in trade execution, develop and communicate trade ideas and support client needs.

Outsource Trading

Skills and Qualifications: Analytical and quantitative mindset, ability to work under pressure, multi-tasking, teamwork and communication skills.

Key Activities: Assist and monitor multi-asset trade execution, liaise with internal and external stakeholders and engage in business development.

Global Program Trading

Skills & Qualifications: Strong data analysis, attention to detail, technical proficiency (e.g., Excel), fast problem-solving, and understanding of global equities.

Key Activities: Manage and execute large baskets of equities and analyse transaction costs for institutional clients.

Fixed Income (Credit & EM focus) Sales and Trading

Skills & Qualifications: Strong analytical and quantitative abilities, clear communication, attention to macroeconomic trends, and ability to synthesise data.

Key Activities: Monitor fixed income markets and economic news, execute trades in bonds and related products, generate market ideas, and inform clients of opportunities and risks.

Event Driven Team (Event Driven Trading/Soft Catalyst)

Skills & Qualifications: Analytical and research skills, understanding of market-moving events, strategic thinking, and effective written and verbal communication.

Key Activities: Track and interpret corporate events and news (such as earnings, M&A), develop timely trade ideas, provide actionable insights, and partner with trading teams for strategy execution.

Investment Banking

Skills & Qualifications: Researching and synthesising financial and operating information about companies and industries, creating and updating financial models, project management, strong analytical and numerical skills, results-driven and perform well under pressure, team player, clear written and verbal communication.

Key Activities: Support deal execution, draft presentations and financial analyses for internal and external stakeholders, gather market data to analyse trends for clients.

Technology

Skills & Qualifications: Passion for technology, with a logical approach to problem-solving. A proactive, solution-focused mindset with a drive for continuous improvement; can-do attitude for diagnosing and resolving complex issues efficiently under pressure; strong data analysis skills.

Key Activities: Leverage data to analyse root causes and implement preventative solutions; automate processes where possible; continuously seek opportunities to enhance workflow and system performance through initiative and practical problem-solving.

We encourage candidates who are interested in any of these areas of business

Application Process

Due to the competitive nature of the BTIG summer internship program, candidates are encouraged to include outside interests, personal attributes, and relevant references that can distinguish themselves as an applicant.

KEY ELEMENTS FOR CONSIDERATION:

- The ideal candidate will be enthusiastic, diligent, ambitious, entrepreneurial, and confident but with a team player mentality.
- We look for candidates who are flexible and willing to engage with the task at hand, whilst being adept at multi-tasking in a challenging environment.
- You should have the ability to interact with all levels of the organisation and have excellent communication skills alongside a strong attention for detail.
- All applicants should be currently enrolled in a Bachelor's or Master's degree program and preferably due to graduate between May 2027 and August 2028.
- A financial degree is not required but the candidate should be able to demonstrate an interest in the financial markets.
- Interns are required to work for ten consecutive weeks (vacation time must be scheduled around the internship program).
- All interns undergo the same background check process as BTIG employees.
- Applicants may be contacted by a BTIG representative if more information is required.

PLEASE [CLICK HERE](#) TO SUBMIT YOUR APPLICATION

The internship program will begin on **21st June 2027** and end on **27th August 2027**.

Applications are due by **23rd October 2026**

Late applications will not be considered.

Due to a high number of applications, we will only be able to respond to applicants who reach the next stage of the interview process which will take place in **January 2027**.
